Radosław Siek

React Frontend Developer | Programming Coach

Address
Katowice/Opole
(Poland)

Email address
radoslaw.siek-web.dev@wp.pl

Telephone number
665 528 362

EXPERIENCE

With over two years of experience as a frontend web developer specializing in React, I have developed a diverse freelance portfolio featuring projects such as a language tutor's portfolio, an online school website, and a comprehensive redesign for a construction company. These projects have received positive client feedback, detailed in the testimonials section of my portfolio. As a Programming Coach at Coding Giants, I teach children and teens web development, programming, and AI, demonstrating my dedication to both technology and education. I hold certifications in React, JavaScript, and Tailwind CSS, which have further honed my frontend development skills. Additionally, I am an active participant on Frontend Mentor, where I contribute projects and community feedback, showcasing my commitment to continuous learning and improvement.

QUALIFICATIONS

Programming Coach
2024 - Currently, Coding Giants

At Coding Giants, I teach children and teens web development, programming, and AI. I create engaging curricula and interactive lessons using platforms like Scratch and Roblox, mentoring young learners and fostering their technical skills and interest in technology.

Certificates
Links to my certificates published on GitHub for preview.

- React Certificate
- JavaScript Certificate
- Tailwind CSS Certificate

FEATURED WORK

House Harbor
House Harbor is a full-stack property rental service. This page, built with React and TypeScript, features full CRUD functionality via Firebase, and uses Tailwind CSS and Daisy UI for design.

- Project Page
- Project Repo

Overachiever
This SPA, built with React, Tailwind CSS, Daisy UI, and TypeScript, utilizes Jest and RTL for thorough testing. This web app was created for multifaceted task management and holistic progress tracking.
